Van Gogh
GLUEDOWN
RIGID CORE

The Woods collection from Van Gogh features American style and performance with a focus on showcasing nature. Van Gogh offers a genuine texture and unique grain detail inspired by the wood, without the upkeep demands of hardwood floors.

Choose from 26 color options in two formats, allowing for coordination across multiple spaces. The gluedown format is suggested for the ground level, while the rigid core format is recommended for upper levels due to its acoustic properties.

Gluedown

Gluedown provides peace of mind that the product will be permanently adhered to your subfloor. This format gives you various lay patterns to choose from, as each piece is individually installed.

In addition, this format allows you to personalize your floor; choose the direction, create a pattern, or use design strips to create an inlay border or shiplap effect.

Color & Pattern Reproduction

All our products are inspired by things we have seen in nature. Just as variation in both color and detail are part of the beauty of nature, so too are some of our designs. This means that with some of our products you will see natural variation when your floor is laid.

We are continually developing new ideas and improving on our existing designs. This does mean that sometimes products are withdrawn at short notice.
